CCH does not have a target date for rectifying issues on CCH SecTAX at present.

DATE RAISED	ITS	DESCRIPTION	WORKAROUND (If Available)	SCHEDULED/ FIXED
26/03/2012	49709	Offshore Income Gains - The system is treating a Gift Out with Holdover Relief (GOH) as an income gain. This is because it now ignores the CGT rule code when deciding whether a transaction is exempt and classifies it as an income gain or chargeable to CGT according to whether it generates a gain or loss. Only movement codes CVO and TKP are treated as exempt.	No workaround	TBC
